

# OxiTRAP® Iron and Sulfur Filters

Simply Eliminate Iron Staining and Sulfur Odor

- Treatment for the Troublesome Trio - Iron, Manganese and Sulfur
- Efficient Metered Automatic Filter System
- Low Maintenance - Requires No Salt, Chemicals or Air Injection
- Environment and Natural Resource Friendly

**OxiTRAP®**

by CASCADIAN

Made In The U.S.A.

## What OxiTRAP® Does

OxiTRAP® automatic filters solve iron and manganese staining problems and eliminate sulfur “rotten egg” odors. Eliminates the need for added chemicals or air injection systems with an advanced controller on a single tank.

## How it Works

OxiTRAP® is a proven advanced catalytic media that uses the natural power of water to cause iron, manganese, and sulfur to precipitate and be filtered. This all natural process eliminates buying and handling of chemicals or salt.

## Eco-Friendly

With OxiTRAP® your problems are solved with the most Eco-Friendly filter available. OxiTRAP® saves water by regenerating with a simple backwash only as needed. Your water is simply clean and refreshing from every tap.

### 58X Advanced Automatic Control Valve

- Advanced solid state microprocessor-base smart controller with built in diagnostics
- Intuitive Touch Screen Programming
- Efficient meter initiated regeneration saves water by backwashing only when needed.
- Time tested balanced construction with non-corrosive materials
- Handles high flow rates to 27 GPM
- No memory loss on power out
- Vacation mode

# OxiTRAP® Iron and Sulfur Filters

**OxiTRAP®**

by CASCADIAN

## The Media

OxiTRAP® is a powerful catalytic media that harnesses the water's natural power to remove iron, manganese and sulfur. This all-natural process requires no chemicals, salt or air systems.

## The Tank

Made of durable high strength non-corrosive materials for a long dependable life.

## The Control Valve

Made of rugged non-corrosive Noryl™ the high flow rate design does not restrict water or drop household water pressure. Compact size minimizes space required for installation.

## The Control Electronics

Intuitive touchscreen display and sophisticated on-board electronics combined with pass-through optical positioning, integrated water meter and fully customizable programming creates the most dependable, efficient and effective filter available.

Valuable on-board system information includes:

Available information includes:

- Instant and peak flow rates
- Daily Water Usage
- Gallons used since last reset
- Total gallons treated

## The Company

Since 1994 O<sub>3</sub> Water Systems (a family owned business) has been innovating, designing and manufacturing professional grade water treatment solutions including CASCADIAN® Automatic Solutions™ and Integrated Cartridge Solutions™ that are now found around the world.
